MICROBLADING

PRICE ON REQUEST

Microblading is a form of tattoo artistry where pigment is implanted under the skin using a manual handheld tool instead of a machine. This creates hair like strokes which mimic the natural hairs giving the desired fullness and shape of the eyebrows.

A consultation will be required a minimum of 48 hours prior to your first treatment.

Microblading is a two part treatment. After the first treatment a second will be required 4-6 weeks after to perfect your brows. The pigment will begin to fade within 12 months. In order to keep your brows looking fresh, a touch up is recommended every 12-18 months.

48 hours cancellation notice will be required for this treatment.

Please note a non refundable deposit will be needed to secure the appointments.
